

ST ALOYSIUS

CATHOLIC COLLEGE

21st September 2018

Dear Parents/Guardians

Term Four Prep and Kinder Redevelopment

As parents may know, throughout 2018, planning has been underway to significantly redevelop our Kinder/Prep classrooms in preparation for the 2019 school year. We are pleased to announce that this will occur next term.

The redevelopment is significant and we have attached *Block E Upgrades 2018* to allow parents an insight into the development. Due to the significant amount of work required, please note the following:

- **All Prep classes will relocate to the Sisters of Charity Centre from the Commencement of Term Four.** We know from our experience during the 'Great Flood' that this is an excellent space for our Prep students.
- **The Kinder Dolphins classroom will be relocated to the Convent. This means:**
 - All Kinder Blue classes will take place in the Penguins Room for Term Four. This is not part of the redevelopment and will remain accessible for the duration of the build.
 - Kinder Green and White will take place in the convent. This arrangement is necessary to work in with the overlap of days and timetable restraints.

Whilst construction may not commence immediately, we will be moving the classrooms next Friday, 28th September and during the holiday break. We have made this decision to ensure that we provide high quality learning environments and stability for the students in our care.

We would like to take this opportunity to thank parents for their support of the College in 2018. We are excited to be significantly improving our facilities for our current and future students.

We will continue to update parents as new information comes to hand via regular College communication channels.

Kind regards

(Mr) Brendan Gill and (Mr) Joseph Sandric
